starch and yeast powder, together with salarates and spices.

"PINE TAR SOAP" is dispensed at No. 43 Ann-st. by A. A. Constantine, who makes this a specialty. It is efficacious in curing chapped hands, and is known to be a specific in the case of dirty ones.

"SAPOLO" is a *sapone*, or soap used to cleanse and polish metals of all kinds. The trade mark of the firm who make it is the picture of a boy looking at himself in the bottom of a milk pail. Many people have erroneously supposed that Sapolio was the name of the boy. This paragraph will set them right. E. Morgan's Sons make Sapolio at No. 211 Washington-st., and sell a great deal of it.

GROCERIES.

Thomas R. Agnew deals, as aforesaid, at the corner of Greenwich and Murray-sts., in all articles and substances known as groceries. His coffees and teas are of the best, and the same may be said of the hams he sells, and the sugar and spices.

Yeast Powder may be obtained of DOOLEY, at No. 63 New-st., and of JNO. DWIGHT & Co., No. 11 Old-slip, who make a specialty of their saleratus and soda.

THE AMERICAN TEA COMPANY offers the choicest new crop teas at Nos. 31 and 33 Vesey-st., and numerous branch establishments.

WILLARD, No. 369 Canal-st.; or if you live in Brooklyn, go to OVINGTON's, No. 238 Fulton-st., where, in one of the largest and best lighted salerooms, you will also find mantel ornaments, bronzes, Parian statuettes, and all the miscellaneous and one other little what-nots that are so much in demand as presents at Christmas.

 edged nature are sold by the **MERIDEN CUTLERY COM-
 PANY, No. 45 Beekman-st.**

LAMPS.

The **Ives' Patent Lamp**, which may be seen at **No. 37
 Barclay-st.** is one of the most useful inventions of the

age. It is a safe lamp, does not cost much, is easily prepared for service, and can be lighted as quickly as gas.

Another good lamp is that sold at No. 19 Courtlandt-st by C. H. LEONARD & Co. It is a non-explosive.

CHINA. HARDWARE, &c.

E. D. BASSFORD, who has so many specialties in the Housekeeping Department, is particularly choice in his selection of china and glass ware of all kinds. He keeps at No. 1 Cooper Union a perfect museum of curiosities in glass and china. Cut glass decanters, goblets, cake dishes, fruit dishes, and cruetts of the most delicate finish:

china vases, tea-sets, dinner-sets; jappanned ware, silver ware, cutlery, earthenware; everything, in short, that is required to complete a list of housekeepers' wants.

Next door to Bassford is WASHINGTON HADLEY, who is as great as a house-furnisher, his specialty being china tea-sets.

BERRIAN of No. 601 Broadway pays special attention to housekeepers, too. In the item of cutlery and kitchen furniture his establishment bears an A1 reputation.

E. V. HUGHWOUT, at No. 492 Broadway, has a fine display of chandeliers. He keeps well supplied with dinner sets, at all prices.

HERMAN TROT & Co., 505 Murray-st., and CHURCHMAN & TROD, No. 13 Murray-st., furnish cut glass.

The great iron-front building that extends from Centre to Elm-st., on Roade, is occupied in part by the agents for the sale of Essee's Ranges. They have been in great demand ever since the first introduction.

Hot-air furnaces of a superior kind are made by the SIMOND'S Manufacturing Company, No. 61 CHURCH-st.

FURNITURE.

Nothing presents so pleasant a picture as a new, well-furnished, well-lighted parlor filled with handsome

people and echoing to the sounds of music and laughter. Next to that is a cosy bedroom, with the bright light which pours in from without softened and mellowed by delicate shades and snowy curtains; the floor covered with soft carpet that echoes no sound of falling footsteps; and each article of furniture in size and color and style in keeping with the general character of all the rest. To properly furnish these two rooms—to say nothing of the kitchen, where everything should be as agreeable to the eye—the housekeeper must first have taste. Lacking this, she must consult some one who has.

B. I. SOLOMON of Nos. 657 and 659 Broadway, can make valuable suggestions to those who doubt their own ability to preserve the unitites in putting a house in shape. He can also supply the most beautiful suites of parlor and bedroom furniture, including cases and desks and tables for the dining room, table linen, curtains, shades; and the whole host of other embellishments and utilities without which a modern family cannot exist.

A. D. FARRELL, No. 217 Canal-st., makes spring-beds and mattresses on which a Sybarite might slumber like an angel; and the following-named firms offer large collections of household furniture from which the eager public may choose.

CARRIAGES, &c.

At the corner of Fifth-ave. and Fourteenth-
st., is one of the best-appointed carriage factories in the
world. Here the well-known BREWSTER & Co. turn out
all sorts of vehicles, from the pony phaeton to the
elaborate English coach. Here they make cabriolets and

coaches, broughams and buggies, coupes and carryalls, of all sizes, shapes and styles. We bits of basket wares, ones for sea-side and mountain road, to delight the ladies, two-wheeled gigs for the doctor, top hats for the sons of Jehu, and the carriage as large as the common to which the wandering Hamakobai were wont to live, are here gathered together by the dozen and score. Sleighs of the newest patterns, and fancy cutters, decked with much bravery of brass and polished steel, now stand in the forefront of the show-rooms, for the weather-wise say that there will be snow this winter.

JOHN C. HAM, at the corner of Lafayette and

Without horses, what would be the use of the coach, or the sleigh, or the chariot? At the corner of Broadway and Forty-second-st., JAMES JENKINS will supply draught for any number of carriages, wagons, or whatever runs on wheels or glides on runners.

MISCELLANEOUS.

WILLCOX & GIBBS' celebrated sewing-machines are to be found everywhere, but the office of the company is in the large building corner of Broadway and Twenty-sixth-st., where great numbers of the different styles are kept on exhibition. They are the best.

In the same building (Broadway and Twenty-sixth-st.) is the office of the WHEELER & WILSON SEWING-MACHINE Company. Theirs are also the best.

At No. 495 Broadway you may select, if you will, one of

At No. 252 Broadway is the office of the FAIRBANKS SCALES COMPANY. Here you can purchase anything in the shape of balances, from the very tiniest up to those monstrous things on which they weigh tons and tons of the bulkiest matter.

Then at No. 3 Park place is where HOWE'S scales are sold. They are strong, neatly finished, and accurate, and stand second to none.

PIPES.

F. J. KALDENBERG, at No. 6 John-st., offers for sale the most varied assortment of meerschaum pipes ever seen at any one time and place until now. The beauty of the carving on these gems of art can only be equaled by the variety and grace of the designs, and there is not a smoker between here and Port Tobacco who would not get into ecstasies over them, and the dainty meerschaum cigar-holders made by the same workman.

The meerschaum pipe business is monopolized by the firm named above and that of POLLAK & SON of No. 27
